

# Johanna Lindahl

Veterinary Epidemiologist

International Livestock Research Institute, Nairobi, Kenya

Johanna Lindahl is a veterinary epidemiologist working at International Livestock Research Institute (ILRI) in Nairobi Kenya, and adjunct at Swedish University of Agricultural Sciences as well as Uppsala University. Johanna graduated from Swedish University of Agricultural Sciences after doing her PhD working on Japanese encephalitis virus in Vietnam. Since her PhD she has been focusing her research on food safety, and vector-borne, zoonotic and emerging infectious diseases in developing countries, mainly East Africa and South and Southeast Asia. In addition to this, she is coordinating a number of project on aflatoxins as well as antimicrobial resistance.

ILRI is part of the CGIAR consortium and works with partners worldwide to enhance the roles that livestock play in food security and poverty alleviation, principally in Africa and Asia and is a member of the CGIAR Consortium, a global research partnership of 15 centres working with many partners for a food-secure future. ILRI headquarters is in Nairobi, Kenya with a principal campus in Addis Ababa, Ethiopia and offices in East, West and Southern Africa and South, Southeast and East Asia.
