

**Certificate course on
Food Safety of Food Contact Materials
and Packaging**
27th and 28th June 2018: Delhi

Course Overview

The CII-FACE and IITR Certificate Course will give participants an understanding of safety aspects of food contact materials, food packaging material and its safety. This course will also provide an overview of the food contact regulations and labeling requirements in India.

Testing or detection is essential to ensure full compliance with the regulations. Thus testing/detection techniques that are important in accessing food contact materials will be covered. Other areas of relevance that are addressed during the course include the hygienic equipment for food safety, Safety of cleaning/detergent chemicals as food contact materials and risk assessment framework, verification and validation of FCM.

Objective

- To get a thorough understanding on food safety science in food contact surfaces
- Strengthen the understanding on risk assessment, which is essential for proper hygienic design of Food Contact Material
- To understand related FSSAI regulations and the most recent actions on FCM.

Course Content

- Regulatory & Labelling requirements of FSSAI on Food Contact Materials
- Environmental fate of Food Packaging Material
- Incidental contact with Foods: Lubricants & other chemicals
- Safety issues of packaged food and beverages
- Hygienic equipment design for food safety
- Safety of cleaning /detergent chemicals as food contact materials
- Testing/detection techniques of FCM for food safety
- Flexible packaging material & associated safety from source to manufacture
- Flexible packaging: Regulatory and safety issues
- Rigid Plastic packaging containers and safety
- Case study - Rigid Plastic containers safety considerations in edible oils
- Awareness building on Safety of metal packaging containers for edible oils
- Cleaning equipment's and devices and its safety as FCM
- Risk Assessment framework, verification and validation

Speakers From:

- 1) Government:
 - FSSAI, IITR
- 2) Industry Experts:
 - Tata Tin Plate,
 - Cargill,
 - Hindustan Coca-Cola Beverages
 - Uflex
 - NSF

Who should attend?

- Food Industry professionals involved in Quality, R&D, Production and Maintenance
- Packaging product designers
- Food regulators and Inspectors
