

Dr Kaushik Banerjee

Principal Scientist-National Research Centre for Grapes, Chairman
India Section AOAC Intl

Dr Kaushik Banerjee is a Principal Scientist from ICAR-National Research Centre for Grapes, Pune. He is also the current Chairman of the India section of AOAC INTERNATIONAL.

Dr Banerjee has widely published in peer-reviewed journals. Being a member of the Food Safety Standards Authority of India's Scientific Panels and Working Groups on "Pesticide Residues" and "Methods of Sampling and Analysis", he regularly contributes to the development and implementation of food safety standards in India.

His area of research focuses on the development of efficient analysis methods for the sensitive and confirmatory estimation of contaminant residues in agricultural and food matrices, and risk assessment studies for fixation of crop-specific maximum residue limits.
