

# Dr Rachna Dave

Founder & CEO

MicroGo

A trained microbiologist by profession, Dr. Rachna Dave has vast experience in developing R&D based technological solutions. After completing her doctoral studies at NYU, USA in 2008 she returned to India to work as a FAST-Track Young Scientist.

She joined as staff scientist at the prestigious Bhabha Atomic Research Centre (BARC) in 2008. She quit her position in BARC in 2016 and established MicroGO.

MicroGO works on developing solutions which solves the problem around non-compliance in microbial control.

She is also recipient of various awards including the recent COVID Warrior Award from IKP Knowledge Park, Hyd and Biotech Product and Process Development and Commercialization Awards from Department of Biotechnology, Govt. of India for the year 2019.
