Department of Animal Husbandry and Dairying launches One Health pilot project in Uttarakhand

By developing the One Health Framework, India will successfully address the need for efficient disease reporting and response coordination, optimum utilization of resources, emergency preparedness, build capability to handle diseases of economic and zoonotic importance, and create public awareness on animal diseases of zoonotic and economic significance.

Pilot project launched in Uttarakhand to implement One Health Framework

Friday, 08 April, 2022, 08 : 00 AM [IST]

Ashwani Maindola, New Delhi

As part of the National Digital Livestock Mission, the Department of Animal Husbandry & Dairying (DAHD), Government of India, has launched a pilot project in the state of Uttarakhand to implement the One Health Framework by One Health Support Unit to develop a national One Health roadmap based on the learning of the pilot project implementation.

The pilot project in Uttarakhand was launched by Atul Chaturvedi, secretary, Department of Animal Husbandry & Dairying, Ministry of Fisheries, Animal Husbandry and Dairying, Government of India, along with other stakeholders in collaboration with the Bill & Melinda Gates Foundation (BMGF) and the Confederation of Indian Industry (CII) as implementation partner.

Chaturvedi said, "The "One Health India" programme initiated by the department will work with stakeholders from various sectors to improve livestock health, human health, wildlife health, and environmental health through technology and finance. The pilot in Uttarakhand will support the creation of the One Health Framework for India and help build strong social infrastructure that supports the health of the people and the planet. We look forward to co-ordinated engagement among all stakeholders for the successful implementation of the pilot."

The pilot project includes institutionalising the mechanism for data collection on disease outbreaks, prevalence, management, and development of targeted surveillance plan, integrating networks of laboratories, developing and implementing communication strategy across sectors and integration of the data with the digital architecture of the National Digital Livestock Mission.

Present on the occasion, Animal Husbandry Commissioner, GoI, Dr Praveen Malik, said, "The pilot projects will help capacity building and understanding disease prioritisation. Six interventions have been planned for the implementation of the pilot. The interventions will cover institutionalisation and operationalisation aspects for better coordination amongst different relevant sectors."

An inter-ministerial One Health committee under the chairmanship of Principal Scientific Adviser to the Government of India has been established to lead the implementation of the One Health Support Unit. Also, a Project Steering Committee (PSC) was constituted under the chairmanship of Secretary (AHD).

Thursday, 07 April 2022 | PNS | Dehradun

The Department of Animal Husbandry and Dairying (DAHD) of the central government has launched One Health pilot project in the state to implement the one health framework by One Health Support Unit (OHSU) to strengthen systemic capacity to improve animal health and reduce disease occurrence at a national level. The pilot project was launched on Wednesday by the DAHD secretary Atul Chaturvedi in the presence of Animal Husbandry commissioner Praveen Malik and secretary of Animal Husbandry department of the state R Meenakshi Sundaram among officials of other departments.

The main objective of the Unit is to develop a national One Health roadmap based on the learnings of the pilot project implementation. An inter-ministerial One Health committee has been established under the chairmanship of Principal Scientific Adviser to the central government to lead the implementation of OHSU. A Project Steering Committee (PSC) is constituted under the chairmanship of DAHD Secretary and includes competent officials from Ministry of Health and Family Welfare, Ministry of Environment, Forest and Climate Change, Indian Council of Agricultural Research and international development organisations among others.

Commenting on the launch of the pilot project in the state, Chaturvedi said that this project will be beneficial for the health of humans as well as wildlife besides domestic animals. He said, "The One Health India programme initiated by the DAHD is particularly poised to work with all the sectors including livestock health, human health, wildlife health, environmental health, technology and finance with a view to complement each other while working together. The initiation of the pilot in Uttarakhand will support and help the creation of the one health framework for India and help address the health of the people and the planet. We look forward to the coordinated engagement among all stakeholders for the successful implementation of the pilot." He said that the development of the one health framework will successfully address the need for efficient disease reporting and response coordination, optimum utilization of resources, emergency preparedness and build capability to handle diseases of economic and zoonotic importance and create public awareness on animal diseases of zoonotic and economic significance.

New Delhi, April 6, 2022: The Department of Animal Husbandry & Dairying (DAHD), Government of India in collaboration with the Bill & Melinda Gates Foundation (BMGF) and The Confederation of Indian Industry (CII) as implementation partner has initiated the launch of a pilot project in the state of Uttarakhand to implement the One Health Framework by One Health Support Unit. The key objective of the Unit is to develop a national One Health roadmap based on the learnings of the pilot project implementation. Inter-ministerial One Health committee under the chairmanship of Principal Scientific Adviser to the Government of India has been established to lead the implementation of the One Health Support Unit. A Project Steering Committee (PSC) is constituted under the chairmanship of Secretary (AHD), GoI involving representatives from Ministry of Health and Family Welfare, Ministry of Environment, Forest and Climate Change, ICAR, CII, civil societies, international development organizations and field practitioners.

Based on the recommendations of PSC, State and district level one health committees need to be constituted by involving competent authorities from health, animal husbandry and environment ministries. Some of the key activities to be undertaken as part of the pilot project include institutionalizing the mechanism for data collection on disease outbreaks, prevalence, management, and development of targeted surveillance plan, integrating network of laboratories, developing and implementing communication strategy across sectors and integration of the data with the digital architecture of the National Digital Livestock Mission.

The pilot project in Uttarakhand was launched by Shri Atul Chaturvedi, Secretary, Department of Animal Husbandry & Dairying, Ministry of Fisheries, Animal Husbandry and Dairying, Government of India in the presence of Dr Praveen Malik, Animal Husbandry Commissioner, Government of India, Mr. Alkesh Wadhvani, Director, Poverty Alleviation Bill and Melinda Gates Foundation India, Dr. R Meenakshi Sundaram, Secretary, Department of Animal Husbandry, Government of Uttarakhand, Shri Pankaj Kumar Pandey Secretary Department of Medical,
